Student Participation in Annual CBE Student Surveys

Dear Parent/Guardian,

Each year, Calgary Board of Education (CBE) students are invited to participate in surveys that gather feedback about their learning experiences, well-being, engagement, and school environment. Survey results help schools and the CBE evaluate programs, inform planning, and identify opportunities to better support student success and well-being.

CBE Student Survey

The CBE Student Survey is an anonymous, voluntary online perception survey administered twice during the school year. A shorter set of questions is administered in the fall, while the spring survey contains the full complement of questions.

Fall Administration: CBE Well-Being Student Survey Grades 4-12 | October-November

Topics may include:

- School connectedness and belonging
- Positive relationships
- Feeling safe at school
- Well-being and self-regulation
- Awareness of self and others

Participation in these surveys helps the CBE better understand student experiences and identify areas of strength and opportunities for improvement.

Important Information About the Survey:

- Participation is voluntary.
- Individual student responses are anonymous.
- Students may skip any question they do not wish to answer.
- Students may stop participating at any time without consequence.
- Survey results are used for school and system planning, reporting, program evaluation, and continuous improvement.

- Survey results are not used to make decisions about individual students.
- School staff supervise survey administration to support student privacy and well-being.
